MEMORANDUM FOR: TSS/Admin/Logistics Branch

SUBJECT: Request for Assistance in Packaging
Test Program

1. Technical Services Staff is currently conducting an evaluation and test program of certain packaging materials and containers developed by the Mechanical Division. Along with this program, several other packaging methods and materials are being used as a control.

2. TSS/MD has had the assistance and advice of Logistics personnel in the past preparation of the program. Their efforts have been of great value to the Mechanical Division in this program. It is requested that the Logistics Office prepare crates and boxes necessary for the burial materials. These materials are to be shipped to [redacted] where long period burial programs are anticipated.
